Matanos L'evyonim for aniyei Eretz Yisroel: A debate will be held on Purim after the Megillah reading between all those collecting for the poor in *Eretz Yisroel*. Come listen and decide whom you should leave your money with!

Deliver us! As the shul continues formulating a consistent anti-Internet policy, e-mail delivery of the Newsletter will stop after Pesach. Volunteers are needed to deliver the Newsletter to approximately 110 local homes. We are also looking for help with distribution in the Miami, Chicago, and New York metro areas.

Looking for earthworms: The Entomological Committee of Amberley Village Council has determined that our ratio of earthworms to yellow-bellied sapsuckers is out of whack. A task force has been assigned to deal with this issue, looking at potential impacts to the Shul's carbon footprint and the mating of Norwegian Blues. Bottom line, the *kehilla* needs to come up with 25,000 earthworms by Shavu'os, or they won't allow us to serve cheesecake. Biodegradable donor tags can be placed on your worms.

(Gabbai's message)

As you know, there are many gabbaim in our shul. (How many shuls do you know that have a Gabbai Maftir?) A good one to be is the Gabbai coatroom. (Some of those furs get a lot on eBay!) The best one to be is the Gabbai for Setting Up Kiddush. (Kiddush club anyone?)

Trust me, there aren't enough 1,000-page college-ruled notebooks in the world for all the complaints that we get about our "mistakes." If it's not too much to ask, please don't throw cholent at us during Kiddush. And as Gabbai Main Shul, I ask you, please, not to touch the moldings on the side of the mechitzas, since it's my job to clean them daily with a toothbrush.
Thank you!

TOIROH

Mah tehi aleha?

Hagb'hah Class: Stop turning down *hagb'hah* for fear of dropping the Sefer Torah (*chas v'shalom*). Fear no longer! Aaron Kibel will be offering a course, building those biceps, triceps, and pecs! (Meets every week at the J.)

It's a wrap! Rabbi Ottensoser will be giving a five-part class on *gelila* using a *wimpel*. Dates TBA.

Why did Daveed Henn cross the road? He wanted to study about the *Sitra Achra*.

Cease and Desist—whoever is putting *kvit'lach* in the shul *mechitzos*, please stop! Even though the *mechitzos* look like the Kotel, the Rav has *paskenned* that whoever does so is *poreitz geder*.

SpODaSBOM field trip—The trip to Coco Key for the Spouses of Day School Board Members will take place Motzo'ei Shabbos, March 17. Please contact Chaya Gittle Spetner for babysitting information.

Time is money! The Rov has graciously agreed to miss certain minyanim (he will daven at the Kollel, where he can wait for Rabbi Spetner to finish the *Sh'monah Esrei*), so that those *tefillos* can be *davenned* much faster. The highest bidder will be able to choose the fastest *shaliach tzibur*! All proceeds to plug the earthworm deficit.

Zikui Harabbim—donors are needed to sponsor a much-needed *mechitza* in the playroom. Please speak to the *gabbai'im* if interested.

New "Nu" (volunteer opportunity): Several men are needed for "nu-ing" the *shaliach tzibbur*, in case he spends extra seconds in davenning ("Nuuuuuu????"). If interested, please don't speak to the *gabbai'im*.

Sefard, no good: Effective immediately, the Shul—which davens Nusach Ashkenaz—will no longer accept donations of Nusach Sefard siddurim. Those who wish to change the Shul to Nusach Sefard are asked to divert their Nusach Sefard funds towards the purchase of a Sefardic Sefer Torah.
