Comments (1)

is a joy to have in class. She has a great sense of humor and enjoys sharing her creative stories with the class. She enjoys reading stories and books in her spare time. She is doing nicely learning math facts,

but should continue working on new facts each evening.

math has improved including learning facts. She has mastered subtraction facts through 7s to date.

Comments (2)

academic work continues to be good. She works hard, but tends to socialize a great deal. We are working on following directions more carefully and listening better. We have discussed this and I see

improvement already. needs to practice math facts nightly. She is still working on addition facts for mastery.

has worked hard this term. She should practice facts during the summer. has learned all "+" facts and "-" through 8.
